

Documenting Assessment

Example of documenting assessment activities.

XYZ Community College Remedial Math Program				
Frequency	Responsible Party	Learning Objective	Assessment Criteria and Activity/Method	Use of Results
Every 3 years	Math Department	Students will be proficient in pre-college level algebra.	Students will take a comprehensive final exam in their remedial math course (M007 - Introductory Algebra, M014 – Intermediate Algebra). The questions on the final exams will be grouped into clusters (e.g. fractions, percents, operations with signed numbers, etc.). A 70 % correct response in each cluster will be considered success	Students in Fall 02-03 M007 Introductory Algebra Course received less than a 70% in 4 clusters while those in M014 Intermediate Algebra received less than 70% in 3 clusters. Curriculum change has been made to the courses and these changes will be assessed in following quarter courses.

Bill Worpenberg, 2007
