Southern State Community College and The University of Phoenix

Transfer Guide

2001-2002

Transfer Features and Benefits

- All credit from associate degrees (AA, AS, AAS, AAB, ATS) awarded by Southern State Community College will transfer to the University of Phoenix as a “block”, meaning that all associate degree-related courses will automatically transfer. The maximum of 72 (108 quarter) of these semester transfer credits will apply to the Bachelor of Science in Management (BSM) degree (in states where offered). A maximum of 60-69 (90 – 103 quarter) semester transfer credits will apply to all other available bachelor programs. (Note: For students transferring without an earned associate degree, all credit from college-level (not remedial or developmental) courses earned with a grade of C- or better will be accepted in transfer. Depending on the student’s major, 60 – 69 (90 – 103 quarter) of these semester transfer credits will apply to the baccalaureate program.)
- Students from Southern State Community College will be guaranteed admission to a bachelor program at the University of Phoenix based on academic requirements as a result of having earned an associate degree, and upon further satisfaction of all other conditions for admission as state in the University Catalog. University of Phoenix admission requirements include:
 - High school graduation or GED;
 - Current employment or access to an organizational environment that will allow completion of program coursework;
 - Minimum of 23 years of age. (Note: For the exceptional younger student under the age of 23, there is an appeal process for admission consideration.)
 - The Bachelor of Science in Management (BSM) program (in states where offered) requires the conferral of an associate degree.
- At the time an associate degreed student enrolls in the last University of Phoenix baccalaureate degree required course, the tuition will be waived if the student has remained in continuous enrollment and is in good academic standing.
- Upon completion of the Bachelor of Science in Management program (in states where offered), the associate degree focus may be listed as an area of emphasis on the baccalaureate transcript and diploma
- Dual application into Southern State Community College and the University of Phoenix will allow students who are within 12 months of the completion of their associate degree to pre-apply to a baccalaureate program and have access to the University of Phoenix proficiency assessment system and online library. Continued access to these services following the 12-month period will require students to be enrolled in the University.

Transfer to the University of Phoenix is most efficient when an associate degree is earned – especially a transfer degree.

- With an associate degree** – vocational or transfer – all credits within a degree transfer;
- The Ohio Transfer Module satisfies most UOPHX lower division general education requirements – except Math
- Without an associate degree**, all courses transfer which are...
 - College-level (numbered 100 and above)
 - And earned with a grade of C- or better

Note: Depending on the University of Phoenix major, the amount of 60-72 (90-108 quarter) of these semester transfer credits will apply to the bachelor degree.
