Report on August 11, 2011, USO Trustee’s Conference
Vice Chairwoman Wilson, Chairwoman Ayres and President Boys recently attended the Ohio Board of Regents University System of Ohio Trustees’ Conference where they received information on priority initiatives as well as the goals of the Ohio Board of Regents. Sessions on trustee fiduciary responsibilities, best practices and effective policy governance were held. Vice Chairwoman Wilson shared the following information on effective governing boards.

• Know the difference between governing and managing
  o support the president
  o help set goals
  o hold the president accountable

• Balance the priorities of the institution with the needs of the state

• Be aware of ethical issues, especially conflicts of interest

• Know that you have a corporate not individual authority; after argument support the board decision
• Use your own perspective, expertise and judgment
• Engage with members of the community
• Enhance the legacy of the institution
• Recognize that your main responsibility is to the students
• Promote and be an advocate for the institution
• Protect the academic freedom of faculty and students
• Assess your own performance

Signs of an “over-engaged” board
  o too many meetings
  o review administrators other than the president
  o involvement with individual students or faculty
  o focus on detail rather than on the vision

• Focus on the role: Visionary or Caretaker?
  o caretaker would ask, “What do we do and how do we do it?”
  o visionary would ask, “Where are we going and how do we get there?”

Rescission of 1978 Rules and approval of the filing of the updated Board Manual
Trustee Moore moved and Trustee Cimis seconded that the updated Board Policy Manual approved by the Board of Trustees March 9, 2011, be filed with the Ohio Legislative Service Commission and the 1978 Rules be rescinded.

Before taking a vote, Vice Chairwoman Wilson expressed appreciation to those who worked on the Manual as it provides a solid footing for the Trustees, especially new Trustees. President Boys added that he has seen the things in this particular Board of Trustees that Vice Chairwoman Wilson shared earlier from the USO Trustees Conference as a result of the work and discussion around policies. He stated the Board has positioned itself as a highly effective Board because it is functioning in the strategic visioning level. He expressed appreciation for the time the Trustees spent on the Policy Manual as well.

In addition, Dr. Boys reported that faculty and staff, as part of opening week activities, spent yesterday afternoon with Rick Gregory, who facilitated the College’s visionary work last year, to begin that cycle again of establishing goals based on the vision to be a first choice college. The goals that are established need to be embedded in the culture of the college, and based on those goals, the President will lead the institution and will be held accountable in attaining those goals. He appreciates his staff and the Board’s support and stamp of approval in accomplishing the goals that are established.

All were in favor.
