

Military Deployment

Military personnel who are activated/deployed during the quarter are entitled to tuition charges being removed at 100 percent. Make a copy of the student's military order that shows they are being activated/deployed and the Records Office will make adjustments to their records.

If you have a student that may be within a week or so of the end of the quarter, they might prefer to discuss this with their instructor before withdrawing to see if there are any options to complete the work before they leave. If not, withdrawal is probably the best option.
