

Info sessions on SSCC's Home & Mold Inspection classes

Through a partnership with Parker Training Services, Southern State Community College will provide continuing education programs in Home Inspection and Mold Inspection. The programs will be offered as short-term summer classes on the college's North Campus in Wilmington.

Two informational sessions will be offered to cover class details and address any questions from potential students. The sessions will be held from 5:30-7 p.m. Thursday, May 23, in Room 303 of SSCC's North Campus, 1850 Davids Drive, Wilmington; and from 5:30-7 p.m. Tuesday, May 28, in Room 107 of SSCC's Central Campus, 100 Hobart Drive, Hillsboro.

The new Home Inspection course is an 80-hour program to be offered 8 a.m. to 5 p.m. weekdays from June 17-28. It is designed to provide knowledge of blended standards and current practices of ASHI (American Society of Home Inspectors) and NAHI (National Association of Home Inspectors). Topics will include: what is and is not included in an inspection; record keeping and reporting systems; marketing your home inspection business; realtor/client relationships; and environmental and code issues.

The new Mold Inspection course is a 16-hour program to be offered 8 a.m. to 5 p.m. on July 1 and 2. It offers field training experience and class participation meant to mimic real-life scenarios, operation and calibration of equipment, and reporting protocols.

For more information on the information sessions, please call 1-800-628-7722, ext. 4684, or email kfitzpatrick@sscc.edu. More details can be found at sscc.edu/students/events/home-inspection-course-info-session.shtml.
