

CUTLINE: An associate's degree in Engineering: Aviation Maintenance is now offered through a partnership between Southern State Community College and Great Oaks Career Campuses. Those interested in learning more about the program are invited to a May 20 orientation and informational session; classes begin Aug. 25.

Info session planned May 20 for SSCC's aviation degree

Does a career in aviation sound like the perfect path for you? Through a partnership agreement, Southern State Community College and Great Oaks Career Campuses collaboratively offer an FAA-certified associate's degree in Engineering: Aviation Maintenance. Classes begin Aug. 25.

To gear up for fall semester, an orientation and informational session will be held 6:30 p.m. Tuesday, May 20, in the Corwin Nixon Aviation Building on Laurel Oaks Career Campus, 300 Oak Drive, Wilmington.

Attendees can learn more about the program and tour the facilities where the hands-on classes are held. Students who have already enrolled in the program are required to attend the orientation portion to complete necessary paperwork.

The new associate's degree in Engineering: Aviation Maintenance is designed as a six-semester track to be completed in two years. Successful completion of the program could lead to employment at an FAA-certified repair station or airline/airfreight company, in aircraft or aerospace manufacturing, and as an aviation maintenance technician, sales and service technician, and general, corporate and fixed-base aircraft operator. To learn more about the Engineering: Aviation Maintenance degree program, please visit <http://www.sccc.edu/academics/associate/aviation-maintenance.shtml>. To reserve a spot at the May 20 event, please contact Amy McClellan at 800-628-7722, ext. 2785.

During either session, guests can meet with admissions and financial aid representatives, and tour the facilities. To reserve a spot, please contact Amy McClellan at 800-628-7722, ext. 2785.
